This is a call for papers for the third international conference in a series of three gatherings concerning Kierkegaard's upbuilding discourses. The first gathering took place in Oxford from April 16-18, 2010 and was focused on Kierkegaard's early upbuilding discourses. The second was held in Sheffield from May 6-8, 2011 and had as its topic Kierkegaard's upbuilding discourses up to 1847 including *Works of Love*. The third conference will take place in Copenhagen from May 4-6, 2012. This time we are concerned with Kierkegaard's late upbuilding discourses from 1848 and onwards, and we encourage especially papers with a focus on the discourses on communion.

It *is not* a requirement to have participated in the two previous conferences to participate in the Copenhagen meeting.

We hereby invite papers with a reading time of 30 minutes.

An abstract together with a CV should be send to sec@sk.ku.dk no later than April 1, 2012

Conference dates: May 4 – May 6, 2012

Conference venue: Faculty of Theology, University of Copenhagen, Købmagergade 44, aud. 11.
